I was 8 and she was 28. This is a great trip we took and this was just 1 month before she died. Sad but I'm glad we made such wonderful memories before she had to leave us so early. We were in Utah visiting her friend Tony. She is holding Tony's new baby in this photo. We also went to Disneyland on this particular road trip. When we came back from this vacation, she bought us a puppy we named Snowy. She was a mix of poodle, terrier and Alaskan husky. She was a wonderful dog and very smart. She lived 15 years so I had her into early adulthood.

My best memories are all the great vacations we took in such a short time. We went to Disneyland twice, Washington DC and Utah. We went on many weekend trips to the coast. Any weekends we were home, we went to the movies. If she was still here, I'm sure we would have traveled a lot together. We both have an adventurous spirit.
